Object: Testimonial for Wide Infotech (India) P. Limited

Working with Wide Infotech has been a smooth running process and longterm relationship. The team supported and guided us throughout the creation of the website.

We were able to express our creativity, as the team is extremely attentive to our ideas and needs, finding positive and realistic solutions to our feedbacks. They ensure we are a 100% happy with the content and aesthetics, through trials, before executing any manipulations.

The team has a global vision of our digital channels, and is able to advise us across the board. They effectively anticipate the impact of changes, will it be on the website's UX or its Google positioning. In constant contact, we are able to have a fluid relationship which benefits our outputs. The team always takes time to connect with us, making sure we understand different digital processes or limitations we can encounter.

As we grow, we look forward to continuing our work with the team at Wide Infotech.

Meera Hiralal
Director
